

# COLLEGE OF AGRICULTURE AND ENVIRONMENTAL SCIENCES

## Center for Excellence in Post-Harvest Technologies

LOCATED AT THE NORTH CAROLINA RESEARCH CAMPUS IN KANNAPOLIS, we research health-enhancing ways to process fruits and vegetables and explore innovative solutions to make food safer, extend shelf life and preserve health-promoting nutrients.

### Our people:

**40+**

faculty, staff  
and students

**13+**

different countries  
represented by the  
diverse faculty and staff

**30+**

graduate students  
mentored and advised

**10**

Industry  
partners

**12,000**  
SQUARE FEET  
of research space

**8**

PATENTS

&

**3**

PATENTS  
licensed to a  
pharmaceutical  
company

Over  
**\$14**  
MILLION

in extramural funding  
since the center was  
founded in 2007

**350+**

peer-reviewed research  
publications, refereed  
conference scientific  
presentations or  
proceedings, and  
book chapters
