

COLLEGE OF AGRICULTURE AND ENVIRONMENTAL SCIENCES

Center for Excellence in Post-Harvest Technologies

LOCATED AT THE NORTH CAROLINA RESEARCH CAMPUS IN KANNAPOLIS, we research health-enhancing ways to process fruits and vegetables and explore innovative solutions to make food safer, extend shelf life and preserve health-promoting nutrients.

Our people:

40+

faculty, staff
and students

14+

different countries
represented by a
diverse faculty and staff

40+

graduate students
mentored and advised

10

Industry
partners

12,000
SQUARE FEET
of research space

8

PATENTS OVERALL

&

3

LICENSED
to a
pharmaceutical
company

More than

\$17
MILLION

in extramural funding

(2022-2024)

350+

peer-reviewed research
publications, refereed
conference scientific
presentations or
proceedings, and
book chapters
